+91 9074268913

SKILLS & INTERESTS

- **Technical Skills:** Python, C, Java, HTML, CSS, MySQL, Adobe Illustrator
- **Soft Skills:** Problem Solving, Teamwork, Critical Thinking, Leadership, Communication, Time Management, Stress Management
- **Interests:** Software Development, Database Management, Machine Learning, Data Analysis

EDUCATION

- **Govt. Model Engineering College** 2026
  KTU, B.Tech in Computer Science Engineering *9.5*
- **Sabari Central School** 2022
  CBSE, 12th *95.4%*
- **Sabari Central School** 2020
  CBSE, 10th *97.2%*

WORK EXPERIENCE

- **Xalten Systems** 2026
  Intern
  ***Technologies Used**: Python, C++, ROS 2 Humble, Gazebo, Foxglove*
  Implemented a ROS 2-based robot simulation on Linux using Gazebo for environment and dynamics modeling, with Python and C++ nodes for control, messaging, and state tracking, and RViz/Foxglove for real-time debugging and visualization.

PROJECTS

- **HireSync** ***Team Size:* 1**
  Full Stack Developer *3 Weeks*
  ***Technologies Used:** Node.js, MongoDB, Express, React, Cloudinary, JWT, WebRTC*
  Developed a full-stack job portal platform that seamlessly connects candidates and recruiters, featuring secure authentication, dynamic job posting and management, real-time video interview integration and an intuitive user interface.

- **AI Podcast Co-Host** ***Team Size: 1***
  Machine Learning Developer *1 Week*
  Technologies Used: *Python, FastAPI, Vosk, Mistral API, gTTS, PyDub, JavaScript, Tailwind CSS*
  Built an AI-powered podcast co-host that listens to user speech, transcribes it using Vosk, and generates natural, voice-based replies through Mistral and gTTS. Designed with FastAPI, JavaScript, and Tailwind for real-time conversational interaction.

- **Natural Gas Pipeline Leak Detection System** ***Team Size:* 4**
  Machine Learning Developer *3 Weeks*
  ***Technologies Used:** Python, Random Forest, NumPy, Pandas, Streamlit*
  Worked on the development of Gas Pipeline Leak Detection System, designed to detect and analyze gas leaks providing real-time alerts and a historical record of detected anomalies.

- **BookVault** ***Team Size:* 4**
  Backend Developer *2 Weeks*
  ***Technologies Used:** Java, Java Swing, JDBC, MySQL, NetBeans*
  Played a key role in the creation of a Book Catalogue System, enabling efficient book cataloging, user management and transaction tracking through an interactive graphical interface.

COURSES & CERTIFICATIONS

- Pursuing an **Honours Degree** in **Machine Learning** offered by **KTU**.
- Completed coursework in **Database Management System,** certified by **NPTEL** in association with **IIT Kharagpur**.

KEY POSITIONS

- **Placement Cell Coordinator**, Govt. Model Engineering College.

ACHIEVEMENTS & ACTIVITIES

- Finalist in **Flipkart GRID 7.0** , Flipkart's flagship challenge focused on real-world problem solving and innovation.
- Attended a Tech Talk on **Building with Gen AI and Agentic Systems** conducted by **IBM**.
- Participated in **MAGIC 2.0 2023**, an overnight hackathon organised by **IEEE MEC SB**.
- Took part in **>.hack();_23**, an overnight hackathon conducted by **IEEE MACE SB.**
- Attended **Technopreneur 2023**, an entrepreneurial summit organised by **IEDC MEC**.
- Volunteer of **Vincere Negotium 2023**, an event to present innovative solutions to business scenarios conducted by **Excel MEC**.
- Member of **NSS MEC.**
- **Hobbies:** Reading, Dance
